

U.S. Government Has Started Court Action To Take Over 1,100 Acres In Southwest Adams County For Camp Ritchie Addition

The United States government plans to annex 1,100 acres of land in Liberty and Hamilton townships of southwest Adams county to Camp Ritchie, Md.

That fact was revealed with the filing Tuesday afternoon of a petition in the U.S. District court at Lewisburg to start condemnation proceedings to secure the land for the government.

The land includes a tract bounded roughly by the Fountaindale-Sabillasville road, the Emmitsburg-Waynesboro road, the Cove Hollow road which intersects with the Emmitsburg-Waynesboro road at Thalheim's park west of Zora, and the Maryland line.

Twenty-six Owners Involved

No indication was given in the petition about the use of the land, with the petition stating that it will be added to the present facilities of Camp Ritchie for whatever use the government or army may see fit.

There were definite indications from other sources that the Adams county area will be used for the previously announced communications center scheduled to be set up in the Camp Ritchie area by the army.

Twenty-six property owners are involved.

May Be Communications Center

Congressman James F. Lind was reported by the Associated Press as saying that activity in the Camp Ritchie and Greencastle area "must pertain to the previously announced communications center."

Lind said he was told by army engineers that the 1,100 acres in Adams county are being sought in connection with the project, and that probably another 700 acres in Franklin county will also be taken over by the government.

The Associated Press quoted Lind as also saying that a "small spoils area will have to be acquired also in either Franklin or Adams county for the deposit of excavated material." This would indicate that the communications center would probably be, in part at least, an underground installation.

Engineering investigations in the Liberty township area have been underway since last fall.

The plot which the government seeks to condemn begins where the Fountaindale-Sabillasville road intersects east along the Waynesboro-Emmitsburg road to its intersection with the Cove Hollow road. Then lies along the east side of the Cove Hollow road, to the Maryland line, thence along the state border to approximately the east side of the Fountaindale-Sabillasville road, and along it to the point of beginning at the intersection with Route 16.

Boundaries Of Plot

The area begins with the property of Glenn E. Martin at the intersection of the Valley road (Fountaindale-Sabillasville road) with Route 16 (Waynesboro-Emmitsburg road), and extends 9,550 feet along the south side of Route 16 along land of Glenn Martin, Harold M. Carson, Kipe, W. E. Oerner, Ralph Messer, R. W. Eversole, W. T. Eversole, Clarence O. Sprengle, Elmore M. Linebaugh, David Tressler and Emory A. Flohr, all of Fairfield R. 2, to the Cove Hollow road. It then turns southwest on lands of Charles P. Thalheim and Coralye S. Richardson and thence along land of Irvin Clark easterly and southerly to the northern line of land of J. P. Cooper, Jr., then goes west through land of Charles Martin to Winfield Brown land, along the north line of J. P. Cooper's land, continuing west through land of Winfield Brown to land of Esther Gladhill and then northeast through land of Esther Gladhill to the southern corner of land of Emma V. Warren and then through land of Emma Warren, H. B. Martin and Glenn E. Martin to the point of beginning.

The property holders are listed in the petition as Emma V. Warren, Eleanor Linebaugh, Charles T. Thalheim, Emory A. Flohr, David Tressler, Russell Hull, W. T. Eversole, R. W. Eversole, Ervin Clark, Earl Harbaugh, Urban S. Flohr, Glenn E. Martin, Charles S. Martin, Hoy B. Martin, William S. Oerner, Esther Gladhill, Ralph Messer, Glenn Tressler, Clarence O. Sprengle, Robert Kipe, Harold M. Carson, all of Fairfield, R. D.; William P. Dawson and Rev. Alfred Holt, Baltimore; Harold Richardson and Coralye Richardson, of Washington, D. C. and Emma Flohr, Gettysburg, in addition to the Commonwealth of Pennsylvania and possibly the tax collector, school district and road supervisors of Liberty and Hamilton townships.

Hint High Powered Radio

While negotiations were underway to take over the Adams county land the Federal government was also seeking to purchase Camp Ritchie itself from the state of Maryland.

Maryland Adjutant General Milton A. Reckord was quoted in press dispatches as saying that there is still a wide difference between what Maryland wants for the 1,000-acre Camp Ritchie tract and what the government wants to pay for the land. The price offered by the U. S. government is \$2,350,000 while the state wants \$5,000,000.

Articles in Baltimore newspapers said the Federal government wants Camp Ritchie in order to establish a high-powered radio station with a world-wide scope.

News To Some Owners

Several of the property holders contacted by telephone this morning said they had not been approached by the army so far concerning sale of their land to the government. One property holder said that he knew "the government is working west of here" but said he did not know his land was involved. Another reported that she expects the army officials to visit her "tomorrow to see about the land."

Assistant U. S. Attorney Charles W. Kalp, of Lewisburg, who filed the petition for condemnation at the district court, said he "understood" that the Army did not plan to immediately order the landholders of the area from the section but said

Reports "Santa" Has Been Found

There were red faces among Exchange club members at the weekly dinner meeting Tuesday night at Banker's restaurant. Santa Claus had been found.

The replica of Saint Nick was reported Monday to have disappeared from the center plot in Lincoln Square. Tuesday night Herbert Oyler, chairman of the club's Christmas lighting committee, reported that Santa's whereabouts had been discovered, he was safe and would be ready to take his place in the square come another Christmas season.

The faces of two or three members of the Exchange club were red Tuesday night because they knew all the time where Santa was. They removed him themselves—at night—for safe keeping. Their names were not mentioned, so they were saved further embarrassment.

One Gettysburg resident called Mr. Oyler by telephone after she read in The Gettysburg Times that Santa was missing. "I saw Santa Claus, somewhere, on somebody's back porch," she said. "I just can't remember where." It developed that the back porch was the back porch of a committee member who had helped "steal" Santa.

FOUR VEHICLES FIGURE IN CRASH

Four vehicles, two automobiles and two trucks, were involved in an accident on the Cross Keys-Hanover road at the Bethlehem quarries three miles south of Cross Keys at 4:50 o'clock Tuesday afternoon which resulted in property damage totaling \$400. No one was injured.

Automobiles operated by Robert R. Kopp, 16, of 207 Linden avenue, Hanover, and Donald E. Musselman, 16, of 622 G Street, Hanover, were proceeding south, state police of the Gettysburg subdivision said. A truck owned by D. K. Hershey, Hanover, and operated by Warren J. Hoover, 47, of McSherrystown, had just pulled onto the highway from scales at the quarries. Another truck, operated by Roger E. Nace, 22, of Hanover R. 3, was traveling north.

Kopp applied his brakes to avoid striking the truck driven by Hoover, according to state police, skidded sideways and collided with the rear of the truck. Musselman, who was following the Kopp car, went around the other two vehicles and off the highway on the right side. In cutting back onto the road, his car overturned on the highway. The Nace truck was struck by Kopp's car.

Damage to Kopp's car was estimated at \$160; to the Musselman car at \$200; to the truck driven by Hoover at \$5, and to Nace's truck at \$35.

A vote of appreciation was given to the pastor, sexton, organist and choir and the several organizations for the "splendid work" accomplished during the year.

Gettier's Wins County Contract

Gettier's bakery, Biglerville, this morning was awarded the contract to provide bread for the coming year to the Adams county home at the regular meeting of the Adams county commissioners.

Gettier's bid of 13% cents per loaf was the lowest submitted but higher than the 9% cents bid entered by Gettier's last year, when it was also the successful bidder. The county usually uses about \$1,200 worth of bread per year.

The first two county aid petitions for this year were signed by the commissioners for forwarding to the State Department of Highways. Huntingtown township submitted an application for \$1,624.92 with the money to go toward placing crushed stone on all roads. Biglerville submitted a request for \$334.31 to be used toward repairs on Franklin street.

The commissioners signed the semi-annual agreement with the Allegheny county workhouse by which the county will pay \$1.46 per day for any prisoner from Adams county confined there.

The Upper Adams Lions club played host to large delegations from other clubs of Zone B. President Redford H. Mr. Hoffer declared that Lionism "can bring a true sense of peace and brotherhood to this creaking old world." He indicated that it is guided by the Golden Rule. "This Golden Rule," Hoffer said, "has been bandied about and forgotten. Melvin Jones, founder of Lionism, built the groundwork of the organization that put into force the Golden Rule. Lionism, begun 34 years ago, has grown at a rapid pace and has spread to all parts of the world."

"What makes people want it? Why does it operate so effectively? Because it is the realization of brotherhood. Lionism gives a better means of absorbing differences which lead to the spilling of blood."

He continued: "Lionism spreads the understanding which brings us nearer to the Utopian condition (Continued on Page 7)

EXCHANGE CLUB IS TOLD ABOUT "JR. REPUBLIC"

The work of the Pennsylvania Junior Republic as a "school for democracy," was related to members of the Exchange club at its regular dinner meeting at Banker's restaurant Tuesday night by Howard J. Aldworth, president of the West Chester Exchange club and a member of the state board of control.

A colored movie of the "republic," located near Grove City, 25 miles north of Butler, was also shown. Mr. Aldworth explained that the Pennsylvania Junior Republic is a school for wards of the Pennsylvania court, but not a state institution, such as the reformatory. It operates under a board of directors composed of business, professional and judiciary leaders.

Two Pupils Killed In Bus Accident

Gladwin, Mich., Jan. 17 (AP)—A slippery, ice-covered rural road was blamed today for a school bus wreck that killed two pupils and injured a score more.

Authorities investigated to determine if a strike of county road workers had any bearing on the mishap. Sanding operation had been interrupted by the strike.

The bus, loaded with 45 singing and jostling pupils homeward bound from Gladwin Rural Agricultural school, collided with a creamery truck yesterday at a one-way bridge. The bridge spans the northern branch of Cedar river.

The bus careened over the bridge railing and carried the screaming youngsters into the icy water 12 feet below. The bus landed upside down in three feet of water. Heroic efforts of the bus and truck drivers and a crew of Michigan Bell Telephone workers who happened by were credited with saving many pupils from drowning.

GHS Extends Hershey Before Bowing 37-34; Jayvees Win

Gettysburg high school's basketball team played its best game as a unit on Tuesday evening and gave the league-leading Hershey dribblers a big scare before yielding 37-34 in a South Penn league game at Hershey.

Hershey's ability to control the ball off the boards was a big factor in the Warriors' loss.

The score was close the entire way and late in the third frame Coach Forney's lads moved to the front by three points.

Hershey gained a 12-10 advantage in the opening period through goals by Basti, Gaspari, Garrett and Orzenti. The Warriors' points came on goals by Harriel, McCormick and Ford, and free tosses by McCormick, Ford and Swope, the latter landing a pair.

Harriel connected for a trio of win points for the locals in the second period with Swope and Skinner each adding one while McCormick netted a foul. The Trojans held a 2-21 half time lead by virtue of goals by Orzenti, Miller, Basti and Gaspari.

Long Shots Hurt
Gettysburg made its bid in the third frame when it surged ahead by three points but a pair of quick long shots by Miller pulled Hershey back into the lead. At the close of the period the score stood 31-28.

Tight defensive work was shown in the final frame which resulted in little scoring. Gettysburg scored on goals by Ford and Swope and free tosses by McCormick and Saunders. Goals by Gaspari and Miller, with the latter converting two fouls, kept Hershey in front.

Charley Ford played a terrific game for the Forney-men, particularly off the boards, and was a standout performer in the last period.

Ross Sachs' Jayvees spurted in the final period to nip the Hershey Jayvees 35-33. Through converting 11 of 15 foul tosses, the Warriors gained their win. Fisel pumped 22 points through for the winners.

On Friday the Warriors will meet Chambersburg here.

WOMEN'S GROUP TIGERS WANT FERRIS FAIR

(Continued from Page 1)
It was voted to contribute \$2 to the American Bible society, and to present the parents of a newborn child with a year's subscription to The Christian Home, a magazine printed for the interests of parents and family life. It was also decided to purchase devotional pamphlets for Lent for each family of the church.

Clothing for relief in Korea should be in the church by January 24, at which time it will be packed and taken to New Windsor for shipment. Any warm clothing, blankets or money will be accepted.

A fellowship meeting for the young married people of the church is being planned for the end of this month. The society will furnish refreshments.

A word of thanks was given to Ted Goss, electrician, for his donation of time and materials in his work recently completed in the church kitchen.

To Purchase Chairs
Because of the need for lightweight folding chairs to be used in the dining room, and because of the scarcity of these items due to priorities, it was voted to purchase 50 chairs while they are still available. They will be used in the Young People's department.

The circle heads reported three new members, Mrs. Tom Tawney, Mrs. Joseph Temple and Mrs. Owen Voigt.

Devotions were conducted by Mrs. Dunning Idle, Sr., who recalled

HIALEAH OPENS 40-DAY MEET
Miami, Fla., Jan. 17 (AP)—Hialeah race course opens its 40-day meeting today with prospects of better racing, bigger crowds and more betting than last year.

The better racing prediction is based on 20 thoroughbreds entered in the six-furlong Inaugural Handicap, to be run in two divisions with a \$7,500 purse in each. An opening day crowd of 20,000 is expected.

It will be the first time since 1946 and the second time in its 21-year history that the Inaugural was run in two sections.

Woolford farm's Delegate, winner in 1948 and 1949, heads the field in the second division. He will carry 122 pounds, including jockey Ovie Scurlock.

H. H. Hecht's The Pincher, winner of two Maryland stakes last fall, heads the first division, also at 122 pounds. Each section will have 10 entries, barring late scratches.

Hialeah spent nearly \$1,000,000 in preparation for the 1951 season, including a new grandstand roof, 1,800 additional seats and a plush new press box.

The opening of Hialeah follows a highly successful 41-day meeting at Tropical Park, which closed yesterday. Betting at Tropical Park, totaled \$23,230,602 compared with only \$17,998,332 last season, an increase of 29.07 per cent. Attendance was 346,293 against 342,656 last year.

Today's Talk

By GEORGE MATTHEW ADAMS

RARITY OF RARITIES

Of all the people whom you have
met, intimately known, or loved, has
there been a single one you have
felt that you actually knew? We
sometimes come near to this ideal,
but just when we think we have dis-
covered it, it vanishes, like a ghost!

I came across a statement by that
Scotch essayist, Alexander Smith,
recently, and made a note of it. He
said: "The globe has been circum-
navigated, but no man ever yet has;
you may survey a kingdom and note
the result in maps, but all the sav-
ants in the world could not pro-
duce a reliable map of the poorest
human personality." Should this
ever be accomplished, that one would
stand out as a rarity of rarities!

This fact, however, should not
worry us or give to us unhappiness,
for we are all in the same boat. No
one will ever be able to circumnavi-
gate any one of us, but we can for-
ever go on, inviting his or her love
and trust and keep giving ourselves
away in lavish and unselfish fashion.
We can keep shedding the "out-
grown shell" of ourselves, building
"more stately mansions" in which to
house greater characters and more
attractive personalities.

I believe it was Emerson who
stated that to be great was to be
misunderstood! Certainly most of
our great men have been misunder-
stood. Once, commenting
upon the worth of Samuel Butler,
or it may have been Cunningham
Graham, George Bernard Shaw ex-
claimed: "England does not deserve
its great men!"

People with unusual and varied
qualities rarely put them in the
show window. That is one reason
why many apparently seem neglected
until a grave emergency arrives,
when some watchful eye, that has
never been idle, noted them and
called them forth. What were these
neglected ones doing in hiding?

They were getting ready!
I think there is a lesson in this
thought, and that is to give credit to
everyone with good qualities, not ex-
pecting anyone to prove entirely
solvable, but always interesting, and
from whom each of us may profit,
gaining knowledge and understand-
ing as human beings.

Tomorrow Mr. Adams will talk on
the subject: "Traffic of the Mind"

OLD TROOPSHIP DESTROYED BY BALTIMORE FIRE

Baltimore, Jan. 17 (AP)—Wind-
fanned flames swept down a \$5,000-
000 pier in Baltimore's South Har-
bor last night, spread to a historic
old troopship and left it a listing
hulk—"good for nothing but scrap."

The ship, decommissioned in 1947,
was the transport George Washing-
ton which carried President Wood-
row Wilson to and from Europe for
the signing of the Versailles Peace
Treaty in 1918.

Placed back in service in 1941 at
a cost of \$8,800,000, a similar vessel
couldn't be built now for less than
25 or 30 million dollars, according
to officials of Bethlehem Steel ship-
yards and the Maritime Commission
here.

10-Alarm Blaze

One Coast Guardsman and six
firemen were hurt while battling the
ten-alarm blaze. Only the service-
man was reported seriously injured.

He was Guardsman Robert Long,
17, who plunged from the upper
deck of the Coast Guard cutter
Chinook while manning a fire hose.
He was in Marine hospital today
under observation for a possible
brain hemorrhage.

A blazing tug was abandoned to

Hess, and opened with group prayer
and song. Mrs. Frank E. Reynolds
was in charge of the devotions which
included scripture and prayer. Mrs.
Reynolds was also in charge of the
program which follows: Piano solo
"At the Football Game," John Rey-
nolds; vocal duet, by John Shomper
and Donald Koontz, with Mrs. Rey-
nolds as piano accompanist; piano
solo selections "Skaters Waltz" and
"Waltz Treat," by Barbara Swan. A
film on "The Life of Christ" was
also shown by Mrs. Reynolds.

The business session included the
secretary's report by Miss Louise
Duttera and the treasurer's report
by Mrs. George DeHoff. The guest
package, contributed by Miss Helen
Myers, was received by Mrs. J. Ralph
Reaver. The annual collection of the
birthday money was received from
members in attendance. A contest
was enjoyed and the award presented
to Mrs. Melvin Wehler. Refresh-
ments were served to the 19 mem-
bers and five visitors present by the
evening's committee, composed of
Mrs. Ralph Staley, chairman, Mrs.
Monroe Staley and Mrs. Frank E.
Reynolds. The next meeting of the
class, which is taught by Theron W.
Spangler, will be held Monday, Feb-
ruary 19, at the church with the

ALL WORK GUARANTEED

ROCKETING FOOD PRICES SPUR ACTION

By MAX HALL

Washington, Jan. 17 (AP)—Spurred
by the highest food prices in Ameri-
can history, the government today
moved significantly nearer general
controls over prices and wages.

A nationwide price-wage freeze is
widely expected whenever the Eco-
nomic Stabilization Agency gathers
a staff able to handle such an order
without being snowed under. The
ESA is making progress toward get-
ting such a staff.

Here are key developments on the
stabilization front:

1. ESA employees rose to 450, an
increase of 100 in the last ten days.
2. Work of opening field offices
was rushed. ESA officials said the
13 regional offices will be "in busi-
ness" by February 1, some of them
earlier. And the regional offices will
turn to the job of opening district
offices as soon as possible. Max Mc-

Cullough, former OPA deputy ad-
ministrator, is organizing the field
staff.

Calling In Leaders

3. Industry leaders were being
chosen rapidly to head ESA "com-
modity divisions," such as foods,
chemicals, consumer goods, and
forest products. ESA officials said
these men will be ready to move
into their jobs at a moment's notice.

4. The Bureau of Labor Statistics
announced that the retail prices of
50 foods in eight large cities have
hit a new peak. On January 2, the
average of those prices stood at 218.9
percent of the 1935-1939 average.
During the two weeks, prior to
January 2, the price level had sur-
passed the former high of 216.8 on
July 15, 1948.

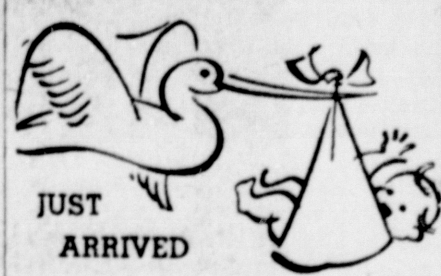

5. One government official—a man
whose influence was extremely im-
portant in blocking a 30-day price
freeze last week—told a reporter he
is not against a freezing but is only
against doing it now, when the staff
is still inadequate.

If prices are frozen, wages must
be controlled, too, under the Defense
Production Act. The nine-man Wage
Stabilization Board, which is one
arm of the ESA, is at work on a
wage control formula which it will

recommend to ESA Administrator
Alan Valentine.

Washington, Jan. 17 (AP)—James
O. McDonald resigned Monday as
Ambassador to Israel and President
Truman chose Monnet B. Davis to
be his successor. The White House
announced the shift in sending
Davis' formal nomination to the
Senate.

Davis, a career diplomat, is a na-
tive of Greencastle, Ind., and a legal
resident of Boulder, Colo. He is a
former Ambassador to Panama.

News Of Interest To Home Builders---

Coupling the simplicity of the old, American farmhouse style with such modern ideas as corner and picture windows and the combination of living room with dining room, the Home of the Week Plan Service comes forth with a home design well adapted to present day needs. It is called "The Northford."

A choice of two floor plans is offered, one having the entrance under a sheltered porch on the front of the house, the other having the front door open from a concrete stoop into a tiny hall with coat closet. There also is a slight variation in the general layout, the kitchen being larger in one plan, the rear bedroom larger in the other.

Cubage is 18,300 Feet
The house measures 36 x 25 feet. Built with the porch end to the street, it could be placed on a lot with a 40-foot frontage. On a larger lot the house could be placed as pictured, with its long expanse paralleling the street.

Cubage of this house is 18,300 feet. Storage space in the attic could be made accessible by placing a disappearing stairway in the back hall of the house. Insulation over ceilings should be installed at the time of construction and ventilating louvers placed in gable ends.

White painted shingles were the exterior finish chosen in the example pictured, though clapboards, brick or stone could have been used for the sidewalls.

Alcove Adds Space
The living-dining room is 18 feet long and 13 feet wide. An alcove treatment of the outside end of the room creates dining space directly connected with the kitchen by a swinging door.

The flush-mantel type fireplace in the long inside wall of the room is placed directly opposite a picture window that has conventional-type sliding windows at either side, easily opened for ventilation.

Two doors near the inside corner of the living room (a closet is located between them) open into the front bedroom and to a rear hall connecting with all other parts of the house. In both plans, the front bedroom measures 11 x 10½-feet. The rear bedroom, at one end of the straight hall varies in size in the two plans.

Bathroom and cellar stairway open off the hall, as does a closet which can be either used for linens or for general storage. The bathroom also has its own storage closet, along with the usual shower-over-tub and other modern fixtures. Linoleum floor covering is specified for the bathroom and for the kitchen; the other rooms have hardwood floors.

Kitchen Planned For Efficiency
The kitchen in both plans is laid out with an eye to efficiency. The first plan has the service entry opening at the rear of the house; the alternate plan changes this to the side of the house, from which a breezeway might be built to connect house and an adjacent garage if the lot is large enough to permit this arrangement. In both layouts a broom closet has been included.

In the full basement the heating system is placed under the kitchen and laundry equipment under the bathroom. This permits utilization of the area under the living room as a recreation room, and space under the bedrooms for storage and hobby rooms. A bulkhead exit from cellar to rear yard could be installed.

Complete plans and specifications for this "Home of the Week," or any other design of this series, are available at moderate cost. To ascertain the exact price of these documents, write to the Home Building Editor, Dept. 18, The Gettysburg Times, and enclose a self-addressed envelope bearing a 3-cent stamp. At least one week should be allowed for a reply.

SUSPECT IN FIGHT DEATHS BLAMES SPREE

San Diego, Calif., Jan. 17 (AP)—Sullen and sick, desperado William E. Cook, suspected killer of eight persons and in jail after a 12-day international manhunt, blames his plight today on a Christmas spree.

As authorities prepared to press murder and Federal kidnapping charges following his arrest on Monday, the sawed-off Missouri badman told reporters he couldn't remember anything for two weeks after "I got drunk with a man in Blythe (Calif.) Christmas night."

About the time of Cook's arrest, grim-faced officers in his home town of Joplin found the bodies of all five of the Carl Mosser family. Cook is charged with murdering them. The mysterious disappearance of the Mosser two weeks ago prompted an extensive search in Missouri, Arkansas and Oklahoma.

A coroner's autopsy showed all had been shot to death. Mosser, 33; his wife, Thelma, 29, and son, Ronald Dean, seven, apparently had been bound and gagged first. Two smaller children, Cary Carl, five, and Pamela Sue, three, were shot through the heart at close range.

Doesn't Know Mossers
Cook, 24-year-old ex-convict, brought here after his capture 600 miles south of the border in Santa Rosalia, halfway down the Lower California peninsula, was arraigned before a U. S. commissioner yesterday on three Federal charges, principally with kidnapping the Mossers with intent to do bodily harm. His hearing was set for January 29.

The other charges are flight to avoid prosecution on a charge of murdering Robert E. Dewey, 33, Seattle salesman, near Blythe, January 6, and flight to avoid prosecution of Oklahoma robbery charges. Returned to jail without bail, Cook was found to have dysentery and a fever of 101. Here the man who is said to have boasted of killing seven persons before he met Dewey on the desert told reporters: "I don't know any Mosser family. I got drunk with a man in Blythe Christmas night. After that I could have been anywhere until I woke up in a car that broke down."

"That was January 7, 40 miles south of the border and the car was Dewey's," says the FBI.

David P. King, York, prothonotary of York county, was a visitor to town over the week-end. Mr. King, a descendant of one of East Berlin's earliest families and a childhood resident of East Berlin, was accompanied by C. S. Glatfelter, also of York.

May Ask Senate OK On Troop Orders

Washington, Jan. 17 (AP)—Democratic leaders today considered asking the Senate to approve the dispatch of American troops to Europe to bolster North Atlantic defenses.

Although President Truman has said he doesn't need Congress' approval of such a move, Senator McFarland of Arizona, the party floor leader, told a reporter:

"I have no objection to the Senate's voting on the general principle of whether we should support the Atlantic treaty with our military forces."

Senator Douglas (D-Ill.) said he will force the issue if the administration does not move to bring the question to a vote. Interested Senators said the matter is being laid before the Democratic Policy committee with the possibility that a resolution approving the transfer of troops may be forthcoming soon.

WOULD SLASH TRUMAN BUDGET

Washington, Jan. 17 (AP)—Senator Byrd has proposed that Congress carve \$7,000,000,000 out of President Truman's huge new budget and raise taxes by \$9,500,000,000 instead of the \$16,000,000,000 the President suggested.

The Virginia Democrat, an outspoken foe of what he calls extravagant administration spending policies, said that plan would not deny a dollar needed for defense and produce a balanced budget well under the \$71,594,000,000 the President asked.

Meanwhile, crying "Socialism," the potent coalition of Republicans and Southern Democrats in Congress made ready to war on a flock of "fair deal" measures the President put into his "national survival" budget, his estimates of government spending and revenues in the fiscal year starting July 1.

Top Republicans assailed the budget as a "spending-as-usual" plan for "the same old, tired Socialist program." They promised to crack down generally on non-defense spending.

Ending a short-lived surface reconciliation following Mr. Truman's "Dear Harry" letter to Byrd, the Virginia Senator declared in a statement: "In my experience of 18 years, considering the perils that confront our nation, this (budget) message represents the very height of fiscal irresponsibility. X X X the President renews his advocacy of the socialistic measures known as the fair deal."

Actually, Byrd said, Mr. Truman proposed to increase non-defense spending to the highest level in history.

New Oxford—Mr. and Mrs. Elmer E. Wilson entertained 67 persons last week who called to see Mr. Wilson's elaborate electrical miniature village display which will remain up until the end of January in answer to the demand of persons who were unable to see it during the holidays.

Mrs. Curtis S. Sponseller was hostess during the week at her home where the Women's Missionary society of the First Lutheran church met for a covered dish supper, followed by a meeting in which the hosts was assisted by Mrs. Edith Taubman in the lesson study.

The recently-born son of Mr. and Mrs. Stephen Weaver has been named William Gabriel, in memory of Mr. Weaver's cousin, William G. Weaver, a son of Mrs. James R. Weaver and the late Mr. Weaver, and New Oxford's only casualty in the Korean war, who was killed in action in September, a few months after his re-enlistment. Sponsors for the baby when he was christened at the local Catholic church by the Rev. Robert D. Hartnett, pastor, were the brother and sister of the army hero: George J. Weaver and Miss M. Bernice Weaver.

Old White House Being Sold Piece By Piece As Souvenirs

They're literally selling the White House, home of the presidents of the United States since 1800, where John Adams first occupied the executive mansion in Washington, piece by piece, a local collector of historical mementoes has discovered.

For instance, the Commission on the Renovation of the Executive Mansion will deliver, freight collect, enough brick from the White House to make a fireplace, for \$100. Or if one doesn't like brick fireplaces, enough stone from the ancient building to build one can be ordered for the same price.

Here are some other prices for these "memento kits" which have been received by the local collector from the commission.

Enough old pine to make a gavel, \$2; enough old pine to make a cane, \$2; small piece of old stone and an old lath nail, suitable for a desk ornament, 50 cents; small piece of old stone and an old square nail, suitable for a paperweight, 50 cents; piece of old pine, an old nail, a small piece of stone, old copper wire, suitable for a plaque, \$2; small piece of old metal, 50 cents; small piece of old pine, 50 cents; piece of hand-split lath about one foot long, 25 cents; small piece of stone, 50 cents; one brick, as nearly whole as practicable, \$1; two pieces of stone to make bookends, \$2.

How old these mementoes are the letter quoting the prices does not say. The White House was burned August 24, 1814, when the British occupied the national capital. Most of its interior was destroyed. The work of rebuilding it was completed in 1829, when the outer grey sandstone walls were painted white to cover the evidences left by the fire.

Workmen and contractors have been busy for months renovating, repairing and rebuilding the White House. The bomb shelter built in 1942 for the president, his family and

A short period of catechetical instruction by the pastor preceded the rehearsal. The children will receive instruction on the first commandment next Monday at 3:45 p.m.

Mr. and Mrs. George Bluett of Baltimore were Sunday guests at the home of Mrs. Bluett's son and daughter-in-law, Mr. and Mrs. Henry Charlton, West Main street Sunday.

Smoke Control Plan Ready For Passage

Harrisburg, Jan. 17 (AP)—A package of bills designed to furnish Pennsylvania with an effective smoke control system was headed today for the general assembly.

Rep. Baker Royer (R-Lancaster), chairman of the joint state government commission, said the proposed smoke control laws will be introduced shortly in the legislature.

The measures, prepared by the commission, a research arm of the general assembly, would authorize the establishment of state-aided units on a county-wide basis to combat the smoke menace.

A study on smoke control made at the commission estimated that the cost of smoke damage to persons in some areas of the state runs as high as \$30 a year.

AUTOMOBILES DAMAGED

Two automobiles were damaged in a collision on Poplar street, near Hoffman avenue, Hanover, about 12:30 p.m. Sunday with both drivers escaping injury. Police reported that a car driven by William B. Menges, New Oxford R. D. 1, attempted to pass the machine of Ralph Zartman, Hanover, as both vehicles were traveling west on Poplar street. In doing so Menges' car sideswiped the other machine which was damaged to the extent of \$200, police said. Damage to the New Oxford car was placed at \$10.

The White House building and grounds cover about 16 acres.

staff, is being enlarged and strengthened. When it was constructed, it was supposed to withstand a direct hit from a 600-pound bomb, or perhaps an even heavier one. There are atom bombs now-a-days.

The commission for renovation of the White House is a bit particular who gets the pieces of old stone and wood, the brick, lath and nails. The application states that the person desiring such mementoes agrees not to allow any part of the material to be sold or exploited commercially. Only one kit is allowed to a person, and for personal use only, or as a gift.

The Emmitsburg Cub pack was started in April, 1950, and at present has 25 boys enrolled from eight through 10 years of age.

Pleven Coming Here For Talks With President

Washington, Jan. 17 (AP)—Premier Rene Pleven of France will come to Washington January 29 for a two-day policy conference with President Truman.

Announcing this today, the State Department said Pleven suggested the conference and that Mr. Truman welcomed him to confer on "important questions of mutual interest."

Informed government officials said Pleven wants to discuss cold war strategy, particularly the problems of French Indo-China and western European rearmament. Presumably, too, the agenda will include discussion of the atomic bomb.

During similar talks with British Prime Minister Attlee early in December, Mr. Truman promised to keep Britain "at all times informed" before he would make a decision to use the atomic bomb.

Surprise To French Here
The announcement of Pleven's forthcoming visit came as a surprise even to the French embassy here. Such a visit had been rumored two weeks ago but American and French officials said they knew of no such plans.

American officials said that the Truman-Pleven talks probably will be sweeping in scope, probably including these points:

1. France's desire for more American military supplies to the French and loyal Indo-Chinese forces who are battling Communist-led guerrillas. Secretary of Defense Marshall already has assigned these shipments a priority second only to those going to Korea.

2. Plans for boosting arms production in France so as to make it possible for the French to create 20 new Army divisions in Europe by the end of 1953. France already has been promised the biggest share of the \$5,000,000,000 fund the U.S. has set aside to arm a score of friendly countries.

To Discuss Big 4 Meeting
3. Closer French-American controls over strategic exports to eastern Europe and Communist China.

4. Steps to allocate raw materials needed by France for military output and its civilian needs and control their prices. The French have been concerned that scarce materials either would not be available or would be so expensive as to make the cost of rearmament prohibitive.

5. A new Big Four Foreign Ministers meeting. The French have been pressing for such a conference with the Russians but the U.S. has been reluctant to assent until it had a more definite idea what Moscow wants to talk about.

6. France's future attitude toward recognition of Communist China. Thus far France has not recognized the Peiping regime but there has been speculation from Paris she might do so.

Church Will Mark 200th Anniversary

The 200th anniversary of Trinity Lutheran church, Taneytown, will be celebrated with three presentations of an historical pageant the evenings of January 22, 23 and 25 at 8 o'clock, in the church auditorium.

The pageant, "The Seven Books of Trinity," was written and directed by Miss Dorothy Elderderice, teacher of dramatics at the Westminster seminary. Each book depicts a special event of early church history.

One scene shows a confirmation class and the pastor as the boys and girls raise questions on the history of the Lutheran church in America, how their ancestors decided to come to Taneytown. Another scene is the coming of the first German pilgrims in the 1730's. The first recorded baptism and the dedication of the first brick church are enacted.

An interesting scene is that in which General Meade and his staff converse with men of the church and Pastor Williams.

Inaugurate Byrnes As S.C. Governor

Columbia, S. C., Jan. 17 (AP)—James F. Byrnes, whom Franklin D. Roosevelt called Assistant President, Tuesday became governor of South Carolina with a ringing call for American military concentration in Europe to deter Russian aggression.

"If the time is approaching when Russia will be ready to go to war," he declared in an inaugural speech bearing heavily on foreign affairs, "then it is not wise to have our army divided between Korea and Europe."

"To my mind Western Europe is an indispensable first line in the defense of civilization. We should concentrate our forces in Europe."

"Self-preservation demands that we act before the Soviets strike," said the man who as Secretary of State met many times with Russian diplomats. "We must rouse our friends in Europe (and) impress on them that the time has come to stop talking and begin acting," he said.

On the home front, Byrnes contended there should be no delay in freezing wages and prices.
